With Brandon

Meet 25 year old Barberton born star singer who made it big on the no 1 singing show in the country, IDOLS SA Season 16 . He made it to the Top 3 then later signed with well known record label Kalawa Jazzme. He's been releasing amazing sounds collaborating with the best in the music industry.

Lets chat with him

What is it about music that makes you feel passionate?

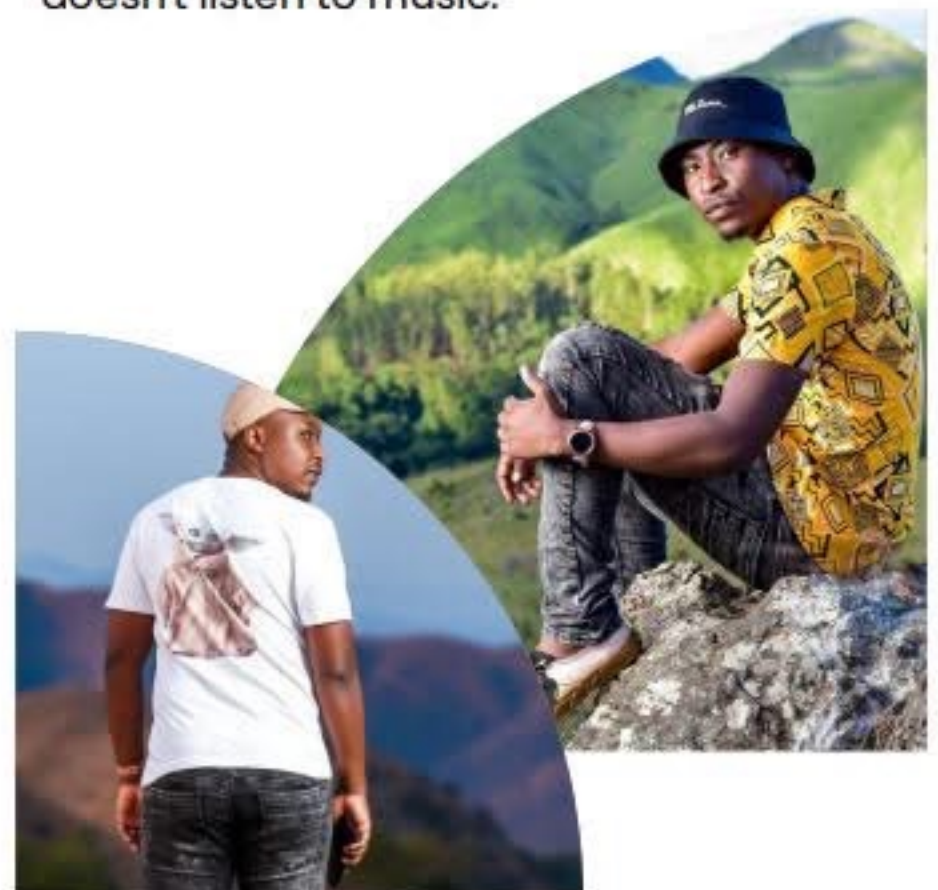

Music is a beautiful thing, I don't think there's anyone on this planet who hates or doesn't listen to music.

Describe your favorite and least favorite part about being a musician.

Hearing what others consider as 'umsindo' beautiful, hearing melodies, writing stories and most importantly singing. My least favorite part of being a musician is being misunderstood and always judging myself, it's stressful.

Do you have any hobbies or interests outside of music?

I used to draw and dance back in the days, well I don't anymore, I don't know what happened. But currently I've fallen in love with the camera so I take alot of pictures.

Which skills have you gained that help you perform effectively as a musician since Idols SA?

On Idols SA I learned that being on time and respecting the people that you work with is important in this industry. Also that warming up your instrument (voice) is important.

Who is your ideal musician to collaborate with and why?

I listen to a lot of music and I'm inspired by a lot of musicians from Jazz, RnB, House etc. I would love to work with Black Coffee as he is now an International artist cause I myself see me doing that in the future.

How do you handle traveling and being away from your home and family for an extended time period while you making music and performing ?

Well my family and friends understand the type of career I'm in and they understand that I might be away for some time and that makes everything easy. They do call and check up on me or even text.

Which musical instruments do you play?

I wish I knew how to play an instrument but unfortunately I don't play any, but my favorite off them all is the guitar.

What strengths do you have that you believe make you a great musician?

I think being the only Brandon Dhludhlu, I haven't heard of another me. Being myself and sounding like myself, I would say that makes me a great musician cause you cant compare me to anyone.

What accomplishments do you see yourself achieving in the next 5 to 10 years?

Being labeled as an African Giant.

Tell me what your first music teacher was like. - What lessons did you learn from them that you still use today?

One thing that I remember is the time I was performing with Benjamin Dube he said to me during rehearsals "Brandon people want to hear your heart through your voice" that has always been a part of me as I try to put emotion into the words I sing.
