

THE ROYAL AFFAIR CORNER
featuring
Lamese

What would you say ignited your love of cars & spinning and how old were you then?

I can gladly say that it is my family. I grew up in a family that is into cars and spinning. I've been exposed to it from a young age. If I remember correctly, since the age of 8 or I could be younger. So it's been a part of me since a very young age.

Do you still remember the first reaction of your family and friends when you told them that you were into spinning ?

It didn't come as a surprise because I've always been a tomboy, into cars and spinning. So I didn't even have to ask to spin, it came naturally because they knew it was something I always wanted to do because of the love I had for spinning and cars.

Do you remember your first experience in a spinning car? How was it ?

Yes I do. I felt on top of the world. It's an indescribable feeling. You feel like you can do anything.

Take us back to the first you had to spin a car.

I was extremely nervous because it was my first time spinning at an event and there were so many people but once I started spinning, everything faded away and I was just doing what I love.

What has been the biggest highlight of your car spinning career ?

I think I might have too many lol . But my biggest highlight for me was appearing on TV. You get the feeling of being recognized for living out your passion and showcasing your talent and it's one of the best feelings.

What goals have you set to achieved in this year and the years approaching ?

My goal is to better myself in my spinning. I also would like to branch out into other motorsports such as drifting. The goal is also to enjoy life to the fullest while fulfilling and achieving my goals and dreams.

FAITH - LOVE - PASSION - RESPECT

Colossians 3:2

Set your mind on things above, not on earthly things.

PRINCESS_M

How were you as a child growing up ?

I was a very sporty child. Always active from a young age. Always busy with sport activities.

What would you say was the ultimate dream for young Lamese?

My ultimate dream has always been being a formula 1 driver. Believe it or not but that's always been a dream for me. To be a female being recognised in a male dominated sport.

Now you are a Health and safety graduate, would say it's also a passion of yours?

No. I started growing a passion for it only after I've finished school.

**Always
ready to
speed and
spin...**

What would you say to young people who want to pursue dreams that are abit unconventional in our communities?

Never ever give up, whether it takes 5 months or 5 years, don't give up! Even when you feel like things aren't going your way, don't. There's no dream that is too big and whatever you set your mind to, you can achieve it. Don't ever doubt yourself. You are your biggest supporter and your biggest critic.

You seem to be a very family orientated, how has your family been the core support?

They've been very supportive wherever I go. I'm very grateful for the support I've received from them. They never doubt me, always encouraging me.
